# HUSKIES SUMMER CAMP

**WELCOME** to our first annual  
**'Huskies Summer Camp'**!

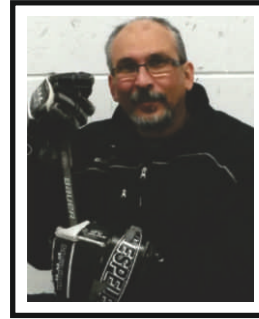

My name is **Rick Heinz** and I have run my own Goalie & Hockey Schools for more than 25 years. As a former **NHL Goalie**, I've learned the benefits of teaching hockey successfully by creating a positive and fun environment. When we took over running the Huskies, our objective was to create more value by concentrating on skill development by using positive teaching techniques.

We are dedicated to providing professional training for Husky players by focusing their attention on fine tuning their own talents, learning new skills, erasing bad habits and working towards the goal of being the best hockey player possible.

Being the best you can be is not easy! It takes hard work, dedication, commitment and persistence. It also calls for quality instruction and fun experienced teachers. That's our goal here; to help Husky players improve themselves and move forward in their development to the next level. We look forward to helping you be the best you can be.
